### **DETAILED ACTION**

Claims 30-51 are currently pending in the instant application, appear allowable over the prior art of record and have been renumbered as claims 1-22.

### **EXAMINER'S AMENDMENT**

An examiner's amendment to the record appears below. Should the changes and/or additions be unacceptable to applicant, an amendment may be filed as provided by 37 CFR 1.312. To ensure consideration of such an amendment, it **MUST** be submitted no later than the payment of the issue fee.

Authorization for this examiner's amendment was given in a telephone interview with Robert S. Silver on 1 October 2007.

The application has been amended as follows:

1. Cancel claims 1-29 and 52-58.
2. Amend claim 30 by deleting the semi-colon at the end of the claim and replacing it with a period.

### ***Election/Restrictions***

Applicant's election of group II, claims 30-51, in the reply filed on 10 September 2007 is acknowledged. Because applicant did not distinctly and specifically point out the supposed errors in the restriction requirement, the election has been treated as an election without traverse (MPEP § 818.03(a)).

### ***Reasons for Allowance***

The following is an examiner's statement of reasons for allowance. This invention relates to a process for preparing linezolid. The novel and nonobvious aspect of this

invention involves the process step a) wherein 3-fluoro-4-morpholinyl aniline is reacted with R-epichlorohydrin to produce N-[3-chloro-2-(R)-hydroxypropyl]-3-fluoro-4-morpholinyl aniline. The closest prior art of record fails to teach or suggest applicants' instantly claimed invention.

Any comments considered necessary by applicant must be submitted no later than the payment of the issue fee and, to avoid processing delays, should preferably accompany the issue fee. Such submissions should be clearly labeled "Comments on Statement of Reasons for Allowance."
